President Obama
White House
1600 Pennsylvania Ave NW
Washington, D.C. 20500

Dear President Obama,

Regarding your executive order to end the torture in Guantanamo, this detainee waterboarding experience is far less excruciating and terrifying than a child living in cockroach infested public housing gasping for air during an asthma attack triggered by cockroach allergen that will kill over 3,000 this year. With over 50,000 needless deaths in the past 27 years, I believe it's time for a United States Department of Justice criminal investigation.

I did not receive a response to my enclosed letter of December 2nd 2008. However, I did receive one from a similar letter I sent to Senator McCain. Had he been able to commit to Roach Prufe® cockroach infested public housing, those forgotten would have been more than grateful to help elect a President that cared for those, mostly minority, having to live with the indignity and hazards of roaches. Senator McCain wrote: "Unfortunately, I cannot be of assistance at this time because Members of Congress are precluded from inquiring into matters pending before the courts." This statement refers to the pending States of New York, Illinois, New Mexico, Wisconsin, Connecticut, and the U.S. Virgin Islands Complaint for Declaratory and Injunctive Relief against the United States Department of Housing and Urban Development (HUD) and Alphonso Jackson, Secretary. Filed U.S. District Court E.D.N.Y. Sept 09 2004 Brooklyn Office CV-04-3869. Preceding this complaint I had sent incriminating documents going back 27 years to all State Attorneys General showing those responsible for this "inhumanity to man".

Mr. President, it takes so little to do so much and become a hero to those forgotten. Your executive order is desperately needed to end this ongoing tragedy while saving thousands of times the cost.

This is not about glory or selling more of my stuff, this WWII Marine needs neither. This is about the greatest, most powerful, scientifically advanced country in the world needlessly cockroach infested the past twenty-seven years with the nation's most harmful and costly insect.

Sincerely,

COPPER BRITE, INC.

Alan D. Brite
President
